Changed passage dates produce changed answer images

a Frozen model, two selected question templates, zero further updates

Replace the passage year
1874/2001 → fixed counterfactual year
Keep original geometry and question ink

→

Read the complete image and emit glyph pixels
Same 64-glyph cap and learned stopping
Erased-question controls use the same passage

b All normal outputs in fixed order. Labels state requested years; images are actual model output.

Treaty | requested 1874

Treaty | requested 1936

Treaty | requested 1648

Treaty | requested 1789

Coast | requested 1993

New dates: 11/14 clear output-first readings, 2/14 pixel-exact, 14/14 natural stops. Three damaged/wrong digit forms remain failures.
Two parents were chosen from prior successes; no sealed or independent semantic accuracy claim. All 32 raw outputs and controls retained.
