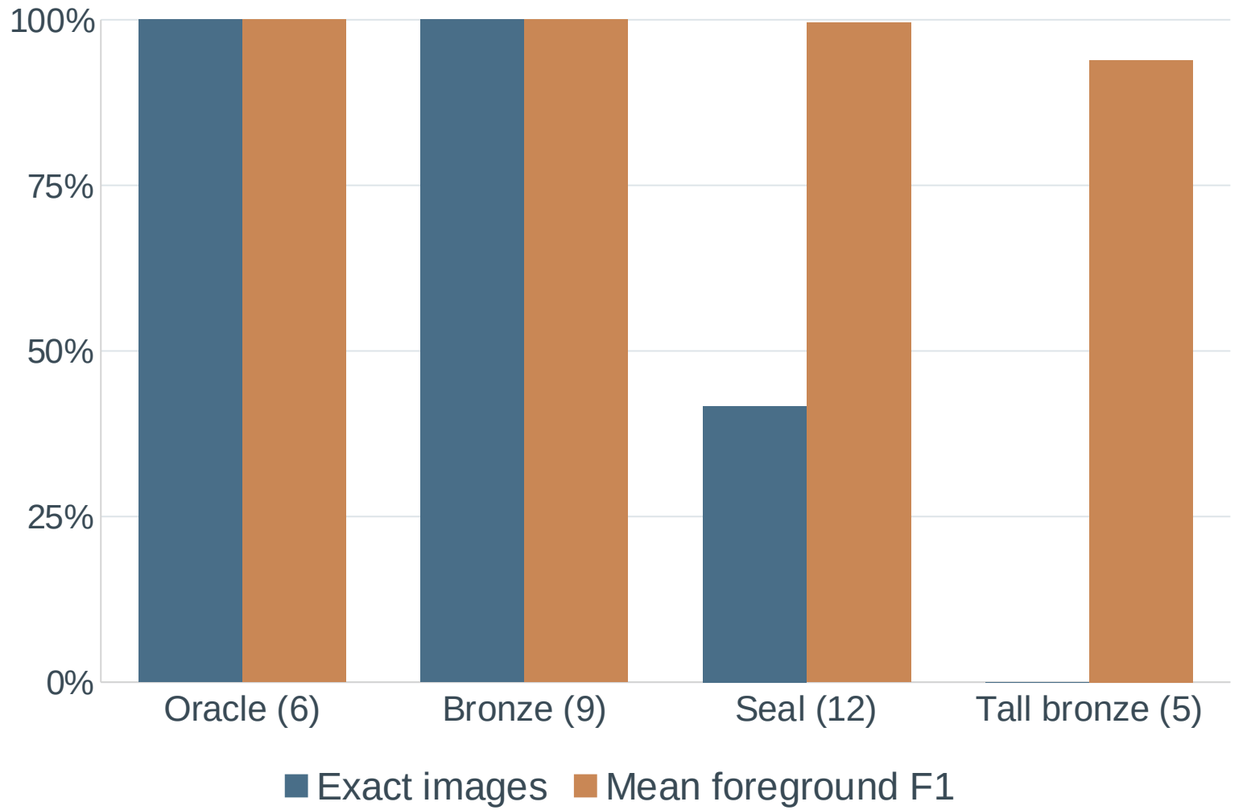
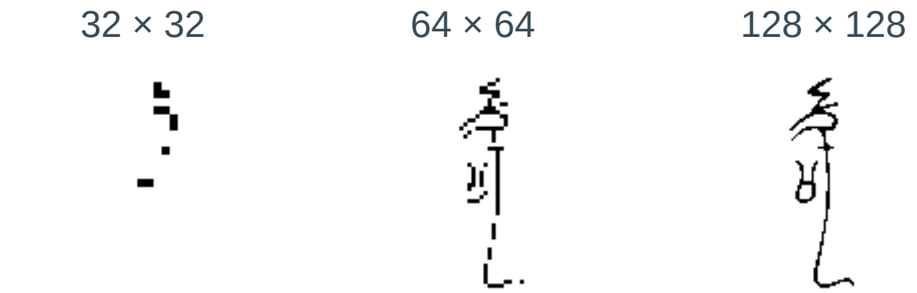
Historical forms through the glyph codec

a Reconstruction fidelity



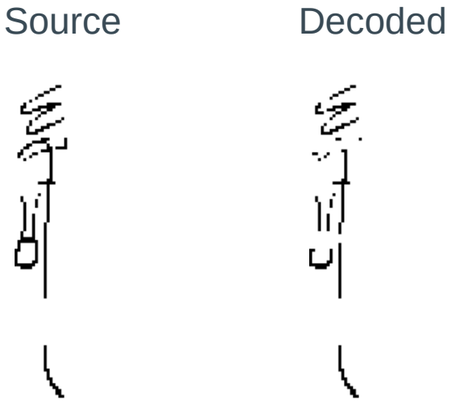
Numbers in parentheses give the number of forms.

b Source rasterization



B12643 retains 10 ink pixels at 32 × 32 and 407 at 128 × 128.

c Four-tile decoding



B12642
F1 0.883

Supplied-image reconstruction through the fixed codec. Historical answer generation remains unmeasured.
